

Watch Hat

A quick and easy hat. Terrific for beginners. Tie a tassel on top for an accent.

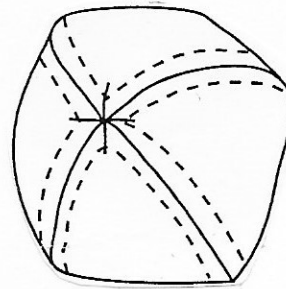

1/3 yd fleece and matching thread

Cut 1 band: 10 1/2" wide by 22" long for medium and 10 1/2" wide by 24" for large. Stretch should be going across the 22"-24" direction.

Cut 4 crown sections (can be 2 of 2 different fabrics)

Sew using 1/4" seam allowances.

1. With right sides together, serge or sew the crown sections together.

2. With right sides together, sew the band into a cylinder. Fold the band in half with wrong sides together and divide into fourths. Matching the fourths to the seams on the crown section sew the band to the crown.

3. Fold band up and add tassel, if desired.

Optional tassel:

Cut 10 strips of 1/4" wide by 6" long.

Bundle up the strips and tie them together in the center with another strip of fleece. Hand sew to top of the hat.
